

## The Bona FlexiSand 1.5 — Optimised for Bare Wood Sanding

The next generation in the Bona FlexiSand Pro System is here. The all-new Bona FlexiSand 1.5 revolutionises bare wood sanding. Geared for the unique Bona Power Drive, it is the first direction-free sanding machine that can sand down to bare wood. It operates in all directions, allowing you to complete every sanding task with ease and comfort.

### Easy to operate

Direction-free sanding from the rotating discs ensures smooth movement across the floor and delivers outstanding sanding results, with minimal risk of sanding down too deep.

### Smooth surface results

Rotating discs follow the contours of the floor, securing an even surface and worry-free sanding results.

### Compact and smart design

Through improved ergonomics and a compact, light-weight design, the Bona FlexiSand 1.5 is easy to handle, transport and store.

Attachable lamp aids operation in low-light areas

Large wheels for easy transportation

Folding and stepless shaft adjustment for easy handling

Power outlet for optional accessories

Handles on the cover plate make it easy to carry

Dust protection skirt on cover plate is self-adjusting in height

Thermal and power overload fuse ensures operational safety

## Passion for Wood Floors

Established in 1919, Bona is a world leading innovator with a unique system for wooden floor treatment. Through subsidiaries and distributors we have local presence in more than 50 different countries enabling us to be close to our customers and craftsmen.

Our long commitment and passion for wooden floors enable us to offer lasting, sustainable results that meet all wooden floor needs for professionals and floor owners alike.

# One Versatile System

## Bona FlexiSand Pro System

Bona FlexiSand Pro System is our promise of simplicity and guarantee of a smoother working process – one flexible solution for all flooring challenges. Whether it's pre-cleaning, sanding, oiling or polishing, the all-purpose system offers a dynamic solution with exceptional quality and performance. One powerful solution is at hand in one versatile system.

Now Bona introduces the next generation in the FlexiSand Pro System – the Bona FlexiSand 1.5. With a strong and reliable 1.5 kW motor, it is the world's first machine specially made for direction-free bare wood sanding, while delivering uncompromising performance for every sanding task.

## Complete Compatibility

The Bona FlexiSand Pro System offers the most flexible flooring solution for contractors. With Bona's comprehensive range of sanding discs, specially developed for use on wooden floors, you will get the most out of your work, regardless of task.

The complete range provides excellent results every time, whether used to remove tough surface materials, or fine sanding before finishing for a beautiful floor.

Bare wood sanding

Great with Bona FlexiSand 1.5

### Bona Power Drive

A breakthrough development specially for the Bona FlexiSand 1.5, the Bona Power Drive delivers optimal performance in bare wood sanding. Equipped with geared rotating discs, its unique design ensures direction-free sanding and high power. It is also easy to operate in narrow areas and corners.

Residue removal – adhesives, carpet foam, epoxy

### Bona PCD Disc

Bona PCD Disc contains PCD segments in combination with diamond segments for more aggressive sanding. This makes Bona PCD disc especially effective for removing stubborn residues such as adhesives, carpet foam backing and epoxy. Can be extended with 5 segments.

Smoothing of concrete

Grinding of Screeds

### Bona Diamond Disc

Bona Diamond Disc is delivered with diamond segments mounted on the plate. They are especially developed for removing the sinter layer from screeds and/or concrete. Can also be used for cleaning/levelling after using PCD disc and can be extended with 5 segments.

Intermediate and fine sanding

### Bona Quattro Disc

Bona Quattro Disc is perfect for reducing and smoothing out drum marks and rotational scratches from edger machines. The four grinding plates (150mm) increase the grinding pressure and enable effective sanding without compromising on smooth end-results.

Intermediate and fine sanding

### Bona Multidisc

Bona Multidisc, with six plates (125mm), takes fine sanding performance to the next level. The fantastically smooth end-results make Bona Multidisc the perfect sanding tool, before staining wooden floors, oiling with pigmented oil or applying finishes.

Buffing

Cleaning

Intermediate sanding with screens

### Bona Pad Drive

The Bona Pad Drive is delivered with Bona FlexiSand machines. Bona Pad Drive is a multi-purpose tool that can be used with a pad to oil or stain wooden floors. When a pad and screen are mounted on the Bona Pad Drive, intermediate sanding is easily performed. Oiled surfaces can be polished to increase the lustre of the floor.

### The Bona FlexiSand Standard Edition

Whether it's sanding, cleaning or polishing a wooden floor, the Bona FlexiSand Standard Edition is a high performer with great flexibility.

It features a strong two-speed motor, an interchangeable disc system and ergonomic design. Easy to operate, transport and store, it is an effective solution for multiple wood flooring needs.
